

# A SEMINAR WITH RANDALL THOMASON MS

## *Nutritional biochemist and pet health consultant*

### PET ALLERGIES – AN EPIDEMIC?

Join us as we approach Spring and for many pets the start of allergy season! Yet for the most part your pet should be able to eat a variety of foods and handle the Arizona climate with ease. Then why so many chronically allergic animals? What is the real cause of allergic sensitivity? What foods and environmental changes can you make to create a difference? What happens when steroids are used - do they really help? What fundamental issues cause allergic responses and why are they so hard to diagnose? Can all this lead to major diseases such as cancer?

As part of the  
OPTIMIZING CANINE HEALTH SERIES

Cutting edge information on pet wellness and disease, commercial, natural & raw diets, supplements, toxins, husbandry, environment and "green" sustainable pet care.

#### WHEN & WHERE

Travel Hounds USA:

3375 E. Shea Blvd. Phoenix, AZ 85028

March 9, 2010 from 6:30 pm to 7:30 pm

RSVP 602.595.9928

*Bailey has been on Randall's supplementation (magic powder!) and diet recommendations since early 2008. The goal was to really boost his immune system. I believe, due to this, his energy, appetite, and attitude have all significantly and noticeably changed.*

Suzette, Paradise Valley

*Aspen would no longer be with me without Randall's expertise—she would have died without his intervention. Now her immune system is stronger on his supplementation and diet and she is more like a regular dog than when she came into rescue.*

Kim, Phoenix

-----

***Randall Thomason is a nutritional biochemist with 30 years of experience consulting on animal health and drug/nutraceutical design. He most recently conducted a study of a holistic approach to treating Valley Fever and is introducing a new product called Desert Defense™ for Dogs. Thomason has spoken at the American Veterinary Medical Association and American Holistic Veterinary Medical Association conferences. He had a syndicated national talk show and is the former consulting biochemist for a major compounding pharmacy.***
